plurality of annotation sets, the one annotation set corresponding to the media content and to the new annotation.

sub C8
b2
31. (Twice Amended) A method comprising:
receiving an electronic mail notification of an annotation corresponding to media content;
replying to the electronic mail notification to generate a new annotation corresponding to the media content;
including, in the reply, an identifier of one or more annotation sets of a plurality of annotation sets that the new annotation is associated with; and
displaying a default recipient, corresponding to the identified one or more annotation sets, that is to receive an electronic mail notification of the new annotation.

sub C10
b3
39. (Twice Amended) One or more computer-readable media as recited in claim 37, wherein the extracting annotation identification information comprises extracting from the email message:

an identifier of media content to which the annotation content corresponds and of a temporal segment, corresponding to the annotation content, of the media content; and

an identifier of an annotation set that a new annotation including the extracted annotation content is to be part of, wherein the annotation set is one of a plurality of annotation sets corresponding to categories for annotations.
